PROFESSIONAL SUMMARY

Full Stack Developer with over 5 years of experience in web application and REST API development. Strong background in **Python and Django**, combined with solid knowledge of **Data Science, Machine Learning, and NLP**.

Experienced in DevOps and cloud environments, working with Docker, CI/CD pipelines, and AWS services. Currently pursuing a Postgraduate degree in Machine Learning, aiming to integrate software engineering expertise with data-driven and AI-based solutions.

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, JavaScript, HTML, CSS, Django, Django REST Framework.
- **Data Science & Machine Learning:** Pandas, NumPy, Scikit-learn, PyTorch, OpenCV, Seaborn, Matplotlib, Jupyter Notebook.
- **ML & NLP Techniques:** Exploratory Data Analysis (EDA), Data Preprocessing, Feature Engineering, Classification, Regression, Sentiment Analysis, Natural Language Processing.
- **Models & Algorithms:** Logistic Regression, Random Forest, Support Vector Machine (SVM), MLP Classifier, BERT.
- **DevOps & Cloud:** Docker, Git/GitLab, AWS, Jenkins, GitHub Actions, Celery.
- **Databases & Search:** PostgreSQL, MySQL; MongoDB, Redis; Elasticsearch (full-text search, indexing, aggregations).

SELECTED PROJECTS

Undergraduate Thesis – Artificial Intelligence in Psychotherapy

- Focused on sentiment analysis in real clinical contexts related to Cognitive Behavioral Therapy.
- Implemented classical ML models (Logistic Regression, Random Forest, MLP) and advanced NLP models such as BERT.
- Worked with the clinical dataset **DAIC-WOZ**.

Production Full Stack Systems

- **Access Control System:** Backend development using Python, Django, PostgreSQL, and Docker.
- **Multiview Media Dashboard:** Centralized system integrating multiple APIs for media management.
- **Equipment Management System:** Inventory and asset tracking system using Django and MySQL.

PROFESSIONAL EXPERIENCE

Mid-level Full Stack Developer | SimWorx Eng. R&D, Campinas

Sep 2023 – Nov 2025

- Developed and maintained internal systems using Python, Django, DRF, JavaScript, and React.

- Implemented scalable solutions with Docker, GitLab, MySQL, and PostgreSQL.
 - Contributed to CI/CD pipelines using Jenkins and GitHub Actions.
Mid-level Systems Analyst | Onidata IT Services S.A., Campinas Aug 2025 – Nov 2025
 - Developed REST APIs and fixed bugs using Python, Django, and DRF.
Data Processing Technician | Radio TV do Amazonas Ltd. Nov 2021 – Aug 2023
 - Developed internal systems with a focus on REST APIs using Python and Django.
Junior Programmer | Flexpeak IT, Manaus Apr 2021 – Jun 2021
 - Bug fixing and feature development using PHP, Vue.js, Docker, Git, Scrum, and MySQL.
IT Assistant | SVI, Manaus Feb 2019 – Mar 2021
 - Implemented ticketing and internal document management systems.
Web Development Intern | SUFRAMA, Manaus Mar 2015 – Aug 2015
 - Maintained institutional websites using HTML, CSS, and ColdFusion.
-

EDUCATION

Postgraduate Degree in Machine Learning

Federal Institute of Amazonas (IFAM) – Manaus

In progress

Bachelor's Degree in Computer Science

Foundation for Analysis, Research and Technological Innovation – Manaus

Completed in 2017

Technical Degree in Information Technology

Foundation for Analysis, Research and Technological Innovation – Manaus

Completed in 2012
